

My First LaTeX Document

Гей

14 мая 2025 г.

1. Introduction

This is a simple LaTeX document. LaTeX is a powerful typesetting system commonly used for academic writing, especially in mathematics, science, and engineering.

1.1. A Simple Equation

Here is an example of an equation:

$$E = mc^2 \tag{1}$$

2. Conclusion

That's all for now. You can add more sections, equations, or figures as needed.
